PROFESSIONAL SUMMARY

Solution-driven Software Engineer with expertise in developing efficient, scalable, and maintainable software applications. Skilled in frontend and backend development, REST APIs, database systems, system design and AI-integrated solutions. Strong IT support capabilities with hands-on experience in hardware and software troubleshooting, Windows and Linux systems, system configuration, network connectivity and end-user support. Committed to solving complex technical challenges, optimizing system performance and delivering reliable, secure and user-focused technology solutions.

WORK EXPERIENCE

Software Engineer

Odyssey Tech | London, UK (Remote) | May 2024 – April 2025

- Developed scalable and maintainable software solutions aligned with business requirements.
- Optimized application performance, reliability and functionality.
- Collaborated with engineering teams to design, test and deliver software solutions.

IT Support Engineer

RajFlix Solutions | Rajshahi, Bangladesh | December 2023 – July 2024

- Provided technical support for hardware, software and network-related issues.
- Installed, configured, and maintained Windows systems and peripheral devices.
- Troubleshooting TCP/IP, DNS, DHCP, Wi-Fi and user account issues.
- Supported IT security and day-to-day IT service operations.

Frontend Developer

RajFlix Solutions | Rajshahi, Bangladesh | April 2023 – November 2023

- Developed responsive and user-friendly web interfaces.
- Integrated REST APIs and optimized frontend performance.
- Implemented modern UI/UX designs and resolved cross-browser issues.

SKILLS

Languages: C, C++, Python, PHP, JavaScript, TypeScript

Frontend: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Laravel, REST API

Databases: MongoDB, MySQL, MS SQL Server, Firebase

AI Integration: OpenAI API, Gemini API, Prompt Engineering

DevOps & Tools: Git, GitHub, Vercel, Netlify, Render, Railway, Postman, Cisco Packet Tracer

IT Support & Networking: Technical Support, Help Desk, Desktop Support, TCP/IP, DNS, DHCP, Wi-Fi Configuration, Network Troubleshooting, Windows, Linux Administration

Cybersecurity: Identity & Access Management, Network Security, Endpoint Security, Cybersecurity Fundamentals

Soft Skills: Team Collaboration, Problem-Solving, Communication, Fast Learner

PERSONAL PROJECTS

Smart ATM Simulation (Online Banking System) *Core Technologies: Next.js, Node.js, Express, MongoDB Atlas*

- Secure Ecosystem:** Developed a high-performance banking interface with secure user authentication and logical processing for real-time transactions.
- Real-time Architecture:** Built a scalable backend using MongoDB Atlas to manage live balances and transaction logs with optimized query response.

- Live Demo:** [View site](#)
- Source Code:** [Github](#)

Hotel Flow – Hotel Management System *Core Technologies: Next.js, Node.js, Express, MongoDB Atlas, Tailwind CSS*

- **Management & Inventory:** Engineered a full-stack platform with a real-time availability system for streamlined room bookings and guest check-ins.
- **Security & UX:** Built a secure backend for sensitive guest data and a modern, mobile-first UI using Tailwind CSS for a seamless user experience

- **Live Demo:**[View site](#)
- **Source Code:**[Github](#)

JibonDaak – Digital Ambulance Service System Core Technologies: React.js, Node.js, Express, MongoDB, Google Maps API

- **Emergency Connectivity:** Developed a centralized ecosystem to connect patients with nearby ambulance services instantly, significantly reducing critical response times.
- **Real-time Navigation:** Integrated Google Maps API for location-based tracking and efficient route calculation for rapid dispatch and pickup.
- **Fleet Management:** Built a robust administrative dashboard to manage ambulance fleets and driver profiles with a high-pressure, user-centric interface.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science and Engineering
Varendra University | 2022 – 2026
CGPA: 2.76 / 4.00

Higher Secondary Certificate (HSC)
Kafuria College | 2019 – 2021
GPA: 4.58 / 5.00

Secondary School Certificate (SSC)
Natore Govt. Boys' High School | 2011 – 2018
GPA: 4.28 / 5.00

ACHIEVEMENTS & HACKATHONS

USAII Global AI Hackathon 2026 Participant - Developed an AI-powered solution focused on wetland monitoring and conservation using modern AI technologies.

Certificate :[USAII Global AI Hackathon](#)

CERTIFICATIONS

- *Node.js (Intermediate) – HackerRank* | [Verify](#)
- *Cyber Security Best Practices for Developers – Educative* | [Verify](#)
- *Software Design Patterns – Educative* | [Verify](#)
- **IT Security: Defense against the digital dark arts** — Google (Coursera):[verify](#)
- *Networking Basics* — Cisco Networking Academy (Credly):[verify](#)
- **Foundations of Cybersecurity**-Google (Coursera):[verify](#)

ADDITIONAL INFORMATION

Languages: Bengali (Native), English (Professional proficiency)

Preferred Job Category: IT / Software Development / Full Stack
